# ABOUT KOH TAO

KOH TAO IS WIDELY RECOGNIZED AS ONE OF THE TOP DIVER EDUCATION CENTRES IN THE WORLD! Today, Koh Tao is one of Thailand's major dive destinations. While remaining an absolute paradise, Koh Tao has expanded to cater for all types of tastes and budgets. Although scuba diving remains the primary focus of most local businesses you will find Koh Tao offers far more than just diving, a whole range of activities to keep even the most avid non-diver enjoying soaking up the atmosphere of Koh Tao.

It is your dream of a beautiful tropical setting focused on diving. Unlike competing dive internship destinations, Koh Tao is a vibrant and successful dive destination with ample opportunity to build the experience that will make you a great dive professional. This gives you genuine employment opportunities and the chance of a fantastic lifestyle.

A small island, a little more than 21 square km, located about 70km east of the coastline between Suratthani and Chumpon in the Gulf of Thailand

Initially, there was only the occasional fisherman from neighbouring islands seeking shelter from a storm. On June 18, 1899, His Majesty the King Chulalongkorn visited Koh Tao marking a huge boulder at Jor Por Ror Bay. This site is revered and respected, and marks the island as having been claimed under royal patronage. From 1933 until being abandoned in 1947 the island was used as a political prison. Later, the first pioneers began to arrive from neighbouring Koh Phangan, and began a very simple, tough life, harvesting coconuts, fishing and growing vegetables.

Koh Tao Thailand completes more than half of all the dive certifications in Thailand. This really does make a great destination to begin your career as a dive professional with your Koh Tao diving internship

The first travellers began to arrive in the early eighties and the island quickly became widely known as a paradise. Faster and larger boats began servicing the island and the islands reputation for natural beauty, marine life and coral reefs grew. Koh Tao is one of the must do stops on the South East Asia route. The clear, tranquil waters offer an ideal location for learning to dive. You'll also find that, although Koh Tao and Dive Careers are focused on diving, there are many other interests from rock climbing to water-skiing to make your Koh Tao experience unforgettable.

### DIVING ON KOH TAO

SEPTEMBER TO OCTOBER AND MARCH TO APRIL YOU CAN SEE WHALESHARKS AROUND CHUMPORN AND SOUTH WEST PINNACLES - AN INCREDIBLE EXPERIENCE! Koh Tao is blessed with an all-year-round scuba diving season.

Koh Tao has wonderful conditions for conducting scuba reviews in the calm shallow, coral filled bays of Aow Leuk and Mango Bay for entry level skills, to the excitement of deeper off shore pinnacles of Chumporn Pinnacle, Sail Rock and South West, surrounded by schools of jacks, batfish and barracuda. This is surely part of the reason for such success as a dive education destination and is also why it is a great choice for your Koh Tao Divemaster Internship.

It is simply one of the best places in the world to make a career as a dive professional.

Koh Tao also has some great artificial reef projects with really successful structures in Tanote Bay and more ongoing projects. Excellent destinations for your Photography and Naturalist Specialties. Plus there is also the navy sunk wreck, the Sattakut. A great dive and perfect for the wreck specialty training.

### A C C O M M O D A T I O N

Koh Tao offers a great choice of accommodation and we will help you find the accommodation that suits you best for your stay on Koh Tao. Accommodation prices range from 130\$ per month bamboo huts through to luxury villas at around 2000\$ per month.

Our aim is to find the accommodation that fits your budget and needs. Just email me on mark@dive-careers.com with an idea of what you are after and I will help with suggestions.

Some of the more special accommodation will require booking ahead, but for most accommodation, there is ample choice to find when you arrive on Koh Tao.

Often I suggest to take a room on the beach at the dive resort for a few days and we will show you around and find the accommodation that suits you best.

Budget accommodation on Koh Tao is normally simply a fan and cold shower with a bed. Mid range accommodation on Koh Tao may have TV, Fridge and even a kitchen in some places. Luxury accommodation on Koh Tao can have whatever you want.

When making a choice about the accommodation that suits you best note that air conditioning often increases the price dramatically as electricity is locally supplied and not from the mainland. Kitchens can be very useful, but meals in restaurants are available for as little as 2\$. Hot showers can be great in the rains, but normally temperature is around 30 Celsius, so not always necessary nor desired.
